FOOD INDUSTRIES

Established 1928—McGraw-Hill Publishing Company, Inc.

THE NEWS OF • PRODUCTION • ENGINEERING • DISTRIBUTION

Volume 6

January 1934 to December 1934

GENERAL ALPHABETICAL INDEX

January 1-48
February 49-96
March 97-146
April 147-194
May 195-242
June 243-290
July 291-338
August 339-386
September 387-434
October 435-482
November 483-530
December 531-578

A

Accidents and Accident Prevention:
Cadmium is poisonous. C. R. Hazen. 268
Dust explosions (picture feature) .. 546
Food plant accidents for 1933 (N).. 375
Malt dust explosions *441
Quaker Oats matches men and jobs for safety. C. S. Johnson..... *252
Truck accidents reduced 78 per cent. H. T. Eggert *505
Wet and slippery floors. D. J. Schnitz. *449

Advertising:
Demonstrating in store windows. E. A. Dench *498
Food advertising on the radio (N)... 423
National Canners' Assn. campaign (ed) 50
Stereopticon device shows coffee operations *335
What Missouri housewives know about brands. Amburgey & Coles *170

Agricultural Adjustment Administration:
Amendments to Act uncertain (N)... 279
Beef purchases tapered; to buy more butter (N) 470
Code machinery grinds slowly (N)... 37
Dairy plan abandoned (N) 229
Dairy program provides benefit payments, processing taxes (N)..... 178
Decision upholds the constitutionality of farm act and sugar control amendment (N) 515
Defective plans of the "planners" (ed) 291
First code under new A.A.A. to flour millers? 75
Food codes transferred to N.R.A..... 73
Indispensable prerequisites for economic planning (e) 387
Milk price plans dropped (N)..... 469
Milk prices increased (N) 421
Million cattle purchases; 400 canneries proposed (N) 373
Moves to enforce voluntary agreement (N) 182
Penalties for violations of agreements (N) 87
Reorganizes to wrestle with production problems 75
Six dairies in Chicago cited (N) ... 229
To bait flour millers with compromise pact (N) 227
Violent upheaval in A.A.A..... *29

Air Conditioning:
American Chicle manufactures its products with conditioned air. C. E. deVivo *534
Conditioning system for starch (e)... *289
Irradiation of milk in dairies. L. V. Burton *342
System important in pan coating. K. A. Bartlett *198

American Assn. of Cereal Chemists:
Judge bread at meeting (N) 184
Sections active (N) 518
Toronto meeting (N) 328

American Bakers' Assn.—Chicago convention (N) 515

American Management Assn. — Fourth Packaging and Shipping Exposition (N) 185

American Society of Bakery Engineers—Chicago convention (N) 184

American Spice Trade Assn.—New York meeting (N) 280

Associated Bakers of America—Refrigerated dough demonstrated at convention (N) 280

Associated Grocery Manufacturers Association of America—Meeting (N)... 565

Assn. of Operative Millers—Convention in Toronto (N) 328

B

Bacteria:
Changing disinfecting methods (ed).. 389
Gas treatment reduces decay of oranges 334
Heat-resisting spore formers in milk (A) 130
Metal cuts spoilage in shrimp packing (N) 281
Sanitation is essential to control micro-organisms and insects. Harry Stiner *503
Temperature is not the sole consideration in Frozen Pack. J. A. Berry. *269
To avoid mold trouble (ed) 437
What the microscope can tell about butter. J. A. Nelson *404
Bag stapler (e) *480

Bakeries and Baking:
Air infiltration complicates bake oven design. G. R. Fennema *310
Bakers' code discussed at A.B.A. meeting (N) 515
Bakery engineers attend convention in Chicago (N) 184
Baking exhibit at Century of Progress (N) *375
Baking is more than heating dough at a temperature. G. R. Fennema.. *262
Better pies (ed) 196
"Boughten" cakes. B. W. Cook.... *208
Butter as an ingredient. F. W. Bouska. *446
Carr Biscuit Co. installs oven and produces own gas. J. B. Carr.... *265
Code finally heard 116
Consumer's attitude toward labeling, inspection and other aspects of Food & Drug Act 538
Control of applied heat is the secret of bake-oven performance. Harry Carlton *164
Dixie Mix cake package protected by foil from pests *457
Heating the vapor-sealed bake oven with electricity. G. R. Fennema.. *555
Large capacity mechanical bake ovens. Harry Carlton *110
Problem of the handcraft shop. W. Steinmetz (F) 274
Small mechanical ovens give adaptability and low cost. Harry Carlton *12
Striking workers trouble bakers (N) 327
Telltale for traveling oven. Joseph Coffin *513
Vapor-sealed bake oven cuts fuel bill. G. R. Fennema *452
Vapor-sealed bake oven solves air-infiltration problem. G. R. Fennema. *408
Wet floors. O. J. Schnitz..... *449

Baking Powder:
Decline in sales (ed) 292
Definitions and standards for food products 268
Federal Trade Commission charges unfair practices (N) 471
Wet labeling. L. V. Burton pt. 1 *302; full-glued labeling pt. 2..... *352

Batteries:
Batteries for motor vehicles in the food field *220
Philco batteries in all types 319
Bean snipper (e). *193

Beer:
Beer delivery bodies. Bussen, Ulmer. *560
Corrugated containers vs. wooden cases for beer. W. B. Lincoln, Jr..... *358
"Draught" beer in keg lined cans.. *430
Draught beer in bottles 574
Green beer caused this headache. Herman Berle *394
Hupfel Brewery modernizes its plant and combines with Canada Dry Inc. who markets the beer *540
Lactose-enforced stout. 526
Making beer not what it used to be. J. A. W. Hartung *489
Rubber hose (ed) 196
Schooner of beer (ed)..... 533
Turns sour (ed) 99

Beverages:
American Bottlers of Carbonated Beverages issue standards (N)... 473
Carbonated fruit juice beverage problems. J. H. Toulouse..... *249
Definitions and standards for food products 266
Drought spoils beverages (N)..... 423
Enertone, beverage with malt base.. *287
New ways to clarify "sick" wines. Blumenthal & Blumenthal..... *254
Ultra-violet irradiation adds zest to drinks 335

Biscuits and Crackers:
Bad debt losses (ed) 50
Biscuits and crackers *575
Celery sandwiches *527
Cellu breakfast crisp and Cellu wafers 430
Cheese flavored whole wheat crackers. *132
Cocktelets or crisp toasted canapes.. *431
Oven dated graham crackers..... 430
Whole wheat wafers *132

Boilers:
Air intake at top of boiler. Coleman, Pef (F) 94
Cross baffling saves fuel. W. F. Schaphorst *82
Water tank saves power. N. T. Pef... 82

Book Reviews:
Abstracts of literature on the manufacture and distribution of ice cream 273
American farmer and the export market. Dowell & Jesness 273
Book of stainless steels. E. E. Thum 323
Chemical formulary. H. Bennett.... 273
Chocolate evaluation. Stroud Jordan 125
Common sense applied to motion and time study. A. H. Mogensen..... 125
Cost and production handbook, ed. by L. P. Alford 323
Economics of the recovery program 125
Food borne infections and intoxications. F. W. Tanner 125
Food products. H. C. Sherman..... 273
Hows and whys of cooking. Halliday & Nobel 125
Manufacture of whiskey, brandy, and cordials. Irving Hirsch 323
Modern food merchandising. W. L. Butler 125
Motor truck red book directory. F. L. Jacobus 273
Practical analysis of some fundamentals of industrial power transmission 323
Statistical abstract of the U. S. 1933 273
Sweet manufacture. N. F. Scarborough 323
World sugar production and consumption. D. J. Robertson..... 323

Bottles:
Extract bottles with broad base *133; correction 239
Modern jug for wine *430

Bottling:
Aluminum foil seal for milk bottles (e) *336
Carbonated fruit juice beverage problems. J. H. Toulouse..... *249
Filler and capper (e) *384, *385
Filler spouts close automatically (e). *385
Hoods milk bottles with cellophane (e) 337
Hydrometers for bottlers (N) 423
Machine cleans and fills bottles (e).. *240

Bread:
Air infiltration complicates bake oven design. G. R. Fennema *310
Baker wins court decision (N)..... 38
Baking is more than heating dough at a temperature. G. R. Fennema.. *262
Bread and pudding loaf 575
Bread improver or Velvert 526

(A) Abstract. (e) Equipment. (ed) Editorial. (F) Forum. (P) Patent. (N) News.

Cereal Chemists judge bread at meeting (N) 184
Cranberry rye bread *574
Dated bread. H. W. Strong *297
Definitions and standards for food products 79
Nesting and stacking bread crate (e). *289
Prune bread 132
Refrigerated dough advantages demonstrated at convention (N)..... 280
12 per cent of milk solids practical in bread 479
Vapor-sealed bake oven cuts fuel bill. G. R. Fennema *452
Vapor sealed bake oven solves air infiltration problem. G. R. Fennema.. *408
Walker electric for milk or bread deliveries *318
Wonder Bread exhibit at Century of Progress (N) *326
Wrapper for bread (e)..... *241
Brewery—Chain breweries next (ed)..... 197

Brewing:

Brewers convene for first time for 15 years (N) 518
Green beer caused this headache. Herman Berle *394
Hupfel Brewery modernizes its plant and combines with Canada Dry, Inc. who markets the beer *540
Stretching a steel vessel by welding. *176
Brine and syrup system (e)..... *241

Butter:

As an ingredient of commercial foods. F. W. Bouska *446
Butter aroma (A) 272
Butter and honey plastic cream 430
Manufacturers want better production control (N) 38
Spoilage (A) 130
Surplus in storage (N) 42
What the microscope can tell about butter. J. A. Nelson *404

C

Cacao products—Definitions and standards for food products 266
Canners' League of California—meeting (N) 194

Canning and Preserving:

A, B, C, labels opposed by canning committee (N) 470
All should learn from canners' troubles (ed) 388
Allocation—yes or no? 118
Aluminum cans (A) 272
Aluminum cans for tuna *83
American cheese in cans *526; L. A. Rogers *308
Baby foods, monogenized 526
Bananas and skimmed milk canned. 382
Better inspection control by signal lights. A. E. Schiller *212
Bulk mincemeat. W. R. McKeldin.. *486
Buyers and canners urge more informative labeling (N) 374
Canned fish to be inspected (N).... 473
Canners' Exchange opens in Philadelphia (N) 280
Canners reluctant to sign marketing agreements (N) 228
Cashew nuts packed in tin..... *238
Cheddar cheese cured in cans..... 190
Clams canned in the shells..... *35
Code disagreements (N) 181
Code finally heard 116
Consumer's attitude toward labeling, inspection and other aspects of Food & Drug Act 538
Continuous broiling eliminated frying problem in sardine canning. N. A. Bowers *52
Determining the jellying power of fruit-juice extractions. G. L. Baker. *305
Distributors adopt label grades (N) 419
Dog-food business. M. C. Schwartz.. *490
Dumb housewife looks at the labels.. 496
Easy opening cans *83
Getting California fruits into foreign markets. Mrak, Campbell & Royer 507
Informative labels. R. S. McBride.. *390
Insure that the farmer gets paid by the canner (ed) 98
Keeping the "core" out of canned egg yokes. John Godston *201
Liquid waste disposal. Young & Kimberley *298
Lobster pack improved 479
Marketing pacts dead for this season (N) 277
Metal cuts spoilage in shrimp packing (N) 281
National Canners' Assn. plans for production control 77
NRA to force grades on canners (N) 419
New method to determine maturity of canned peas. Z. I. Kertesz..... 168
New York licenses canners (N)..... 232
Proposed agreement for canners (N). 135
Shrimp packers revise canning methods (N) 231
Shrimp packers will employ government inspection (N) 374
Standards for canned peas, canned tomatoes and canned cherries changed (N) 329
Strained apple sauce 287
Tomato juice in special can *430
Unearned discounts violate code (N) 420
Vegetable puree 383
Vitaminized canned milk 431
Wet labeling. L. V. Burton pt. 1 *302; full-glued labeling pt. 2 ..*352
What governs the price we pay for raw materials? A. E. Hansen.... *8
Whole baked sockeye salmon canned. 132
Why A B C grades won't work as well as descriptive labeling. L. V. Burton *543
Window-top cans increase sales.... *286
Capping machine (e) *289
Car loader (e) *433

Cereals:

Berry and wheat cereal 191
Dex-whole wheat quick cooking cereal 133
Nutro-egg cereal *239
Vermont flavored oatmeal 431
Wheat hearts *190, 191

Cheese:

American cheese in cans *526; L. A. Rogers *308
Borden's "Early American" pasteurized cheese *382
Cheddar cheese cured in cans 190
Cream cheese with vitamins A, D.. 527
Irradiation failed to prevent molding of cheese. W. V. Price *163
Swiss Gruyere cheese *382

Chocolate:

Chocolate—a food, a confection, an ingredient. B. J. Zenlea *500
Chocolate milk—Heyman decision upheld (N) 185
Cocoa press (e) *384
Egg malted milk powder *34
Manufacturers want 14-week peak production period (N) 181
Non-settling chocolate malt syrup... *34
Pan-coating confectionery. K. A. Bartlett *198
There is a cocoa for every use. B. J. Zenlea *402
Cider—Filtering cider with cloth tube.... *411
Citric acid, fermentation (A) 146
Citric acid from lemons (A) 272

Clarifying:

Cloth tube filters sediment from cider *411
Fine screen clarifies eggs 190
Freezing for wine clarification..... 478
New ways to clarify "sick" wines. Blumenthal & Blumenthal *254

Cleaning and Sanitation:

Ban on bulk milk causes re-equipping for triple capacity (Dairymen's League) E. S. Stateler *4
Choose the right means to combat your plant pests. Harry Stiner..... 113
Cleaning compound caused green beer. Herman Berle *394
Cleaning soiled eggs with a sand-blast *313
Controlling cockroaches. Harry Stiner. *216
Dust guards for elevators. Harry Stiner *275
Flies! gnats! ants! Harry Stiner..... *460
Floor reliefs aid cleaning. Harry Stiner *82
Liquid waste disposal. Young & Kimberley *298
Milk-can washer (e) *529
Passover milk preparation. H. L. Spooner *155
Rats and mice. Harry Stiner *548
Sanitation is essential to control micro-organisms and insects. Harry Stiner *503
Steam-clean greasy machines. Harry Stiner *131
Spray cleaner (e) *289
Storage beetles in food plants. Harry Stiner *258
Systematic housekeeping is the "ABC" of pest control. Harry Stiner *66
Turkish figs have gone modern. Harry Green *10
Vacuum clean bakery bolters. Harry Stiner 417
Wet floors. O. J. Schnitz..... *449
Winery uses concrete fermentation tanks for better sanitation *492
Coating machine (e) ..... *432; (e) *481
Cocoa. See Chocolate.

Codes:

Authorities named (N) 419
Authorities named for coffee, pretzels, candy, salmon canning, California canning (N) 4..... 519
Authorities named for peanut butter, mackerel fishing and New England fish preserving (N) 277
Bakers' and canners' code finally heard 116
Baking code adviser *371
Baking, milling, canning, preserving, candy, cocoa, chocolate, wholesale confectionery, malt products, bottled soft drinks, ice cream cones codes approved (N)..... 324
Basic code signed (N) 468
Brewing, fresh oyster industries, grain exchange, mayonnaise, tapioca codes approved (N) 179
Brewing, wine, preserve, marachino cherry and glace fruit, cocoa and chocolate, spice grinding, malt products, southern rice milling approved (N) 372
Budgets approved and their amounts (N) 419
Candy industry appoints men for field work (N) 473
Candy manufacturing code hearing (N) 180
Canners' agreements accepted (N).. 182
Canners misbehaving on code (N).. 181
Changes in codes (N) 469
Chocolate manufacturers want 14-week peak-production period (N)..... 181
Code authorities for food industries (N) 325
Code budget submitted in September (N) 468
Code expense budgets vary (N)..... 371
Conference of code authorities (N).. 182
Dairy Industry opposes codes (N)... 565
Durable Goods Industries meet to act on dual code levies (N) 565
First code under the new A.A.A. to flour millers? 75
Fish canners change codes (N) 471
Flavoring products industry code approved (N) 469
Food codes speeded up (N)..... 134
Food codes transferred to N.R.A..... 73
Food industry codes have hearings (N) 84
Food regulations in codes (N)..... 37
Grocery codes add minimum mark-ups (N) 181
Grocery manufacturing industries code (ed) 436
Loft clawed by eagle (N) 39
Machinery depreciating at 42.5 per cent (ed) 99
Major food codes near approval (N) 227
Master code near approval (N)..... 370; (N) 418
Mayonnaise and shrimp codes save industries (N) 469
Meat, milk and canning agreements (N) 135
Meat packers handed marketing agreement 117
Meat packers' hearing shifted (N).. 373
New England fish industry code approved (N) 469
New York retail bakers abandon Blue Eagles (N) 276
90% for codes on showdown (N).. 565
No action on master codes (N)..... 36
P.R.A. extended (N) 38
Pecan—shelling code signed (N).... 520
Personnel changed (N) 469
Pickle packing code signed (N).... 520
Retain industrial self control (ed).. 3
Riley fights brokerage payment (N).. 515
Riley wants code levies to be unrestricted (N) 421
Standard Brands loses in coffee code case (N) 372
Survey of opinion on the codes in the food industry. J. D. Fitzgerald.. *246
What codes cost (N) 519
What will become of N.R.A.? Wallace Thompson *300
Where codes stand (N) 276
Where codes stand 137
Who wrote the codes (ed) 340
Will be enforced (N) 565
Wine code changes (N)....422; (N) 470

Coffee:

Analyzer checks coffee grind (e)... *480
Coffee gas. T. M. Rector (F)..... 466
Coffee pot boils over. Kubitz, Punnett (F) 46
Definitions and standards for food products 218
Flaked coffee developed to combat staling 238
Kaffee Hag coffee *239
One-cup coffee packages *526
Roaster (e) *528
Standard Brands loses in coffee code case (N) 372
Where does the gas in roasted coffee come from? Curt Bredt 348
Compressor, vertical air (e) 241

Confectionery:

Alcohol candy barred (N) 87
"Break and take" packages abolished (N) 137
Butter as an ingredient. F. W. Bouska *446
Candy manufacturing code hearing (N) 180
Champagne-on-ice candy *132

Chocolate—a food, a confection, an ingredient. B. J. Zenlea *500
Coconut waffle *335
Dextrose as an industrial commodity. John Krno *107
FTC bars candy lotteries (N) 231
French pecan patties *575
Frozen fruit confection 574
Lowney's offers premiums to buy caramel package *191
Manufacturers fight ban on candy (N) 423
Pan-coating confectionery. K. A. Bartlett *198
Photo-electric packaging for chewing gum. F. K. Lawler *400
Rock candy jar and recipe book.....*238
Sales for 1934, 1933 and 1932..... 429
Tootsie Pop caramel stick confection.*190
Construction news.....43, 91, 141, 189, 235, 284, 332, 380, 427, 477, 525, 573
Consumer (ed) 195

Containers:

Aluminum-foil package for tea.....*286
Bacon carton *287
Bag type container for coffee (e)....*480
Beer container for six bottles *287
Cadmium is poisonous. C. R. Hazen.. 268
Can for cheese with valve-vent. L. A. Rogers *308
Candy box has three point protection against staling *83
Cardboard refrigerator displaying soups *430
Carry home carton for Coca-Cola *527
Carton for "Mickey Mouse" carbonated beverages *83
Carton with aluminum foil wrapper for prunes *382
Cartons vs. baskets (ed) 292
Cellulose container for confections..*133
Cellulose container for tapioca.....*190
Champagne-on-ice candy *132
Cookie boxes *335
Corrugated containers vs. wooden cases for beer. W. B. Lincoln, Jr.....*358
Date package with complete visibility.*431
Eggs wrapped in cellophane *478
Green container—preventing rancidity (ed) 50
Hormel soup package a miniature theater *132
Ice cream cake packing *513
Irwin Wolf award given to coffee package (N) *185
Laminated bag to hold dried skim milk 239
Leakproof collapsible tubes (e)....*192
Milk can checks bacteria growth (e).*288
Nectar Tea package *479
One-cup coffee tubes *526
Pails and barrels for bulk mincemeat. W. R. McKeldin *486
Paper container for dairy plants (e).*240
Refrigerated bag 529
Six-bottle beer package *526
Ten gallons of ice cream in box....*287
Three piece pie package *286
Vacuum packed tea containers *574
Containers. See also Packaging.

Control:

Advantages of gas over wood as smokehouse fuel. C. W. Swenson.*350
Air infiltration complicates bake oven design. G. R. Fennema *310
American Chicle uses conditioned air in manufacturing. C. E. deVivo .*534
Baking is more than heating dough at a temperature. G. R. Fennema..*262
Better inspection control by signal lights. A. E. Schiller *212
Candling eggs automatically *363
Controlled heat is secret of bake oven performance. Harry Carlton *164
Controller (e) *384
It pays to know your plant operations pt. 1 158; pt. 2 *204
Keeping the "core" out of canned egg yolks. John Godston *201
National Canner's Assn. plans for production control 77
Pan-coating of confectionery. K. A. Bartlett *198
Photocell detects turbidity *33
Photo-electric control—essential or frill? R. W. Carson *114
Photo-electric packaging for chewing gum. F. K. Lawler *400
Telltale for traveling oven. Joseph Coffin *513
Temperature regulator (e) *240
Temperature and pressure control (e).*241

Conveyors:

Bulk materials conveyed by the Redler principle. N. W. Elmer *15
Conveyor chain (e) 481
Drip pan for conveyors *467
Roller conveyor (e) *289
Systems for transporting milk, cases and bottles makes possible production increase (Dairymen's League) E. S. Stateler *4

Cooking:

Butter as an ingredient. F. W. Bouska *446
Continuous broiling eliminated frying problem in sardine canning. N. A. Bowers *52
"Directions for making" (ed)..... 292
New A.G.A. stove (ed) 341
Cooler of welded sheets (e) *384
Copper (ed) 3
Copper in food (ed) 196

Corn:

"Sealed corn"—the key to the changed meat situation. J. E. Poole 167

Corrosion:

Milk flavor spoiled by electrolytic action on metals. R. L. Perry...*438

Costs:

Gas engines for food plants. E. J. Tangerman *550
General Foods reduces fleet costs.... 128
Truck lubricating costs reduced by quality oils 126
Cutter regulator for paper and cellulose (e) *384

D

Dairies, Equipment:

Dairy equipment manufacturers and dairy industries meet in Cleveland (N) 514
Hand emulsifier for manufacturing cream. Haldane Gee *360
Milk irradiated in dairies. L. V. Burton *342
New equipment to be seen at Dairy Industries Exposition *464
Reequipping for triple capacity at lower cost (Dairymen's League) E. S. Stateler *4

Dairy Products:

Cream and butter seized by Federal Food and Drug Administration (N) 471
Dairy industries and dairy equipment manufacturers meet in Cleveland (N) 514
Dairy sales to be boosted by consumer education (N) 374
Definitions and standards for food products 26
Drought situation clearer (ed)..... 292
F.I.C. investigates dairy industry (N) 373
Hand emulsifier produces cream from milk and butter. Haldane Gee....*360
Mid-June survey of drought effects on food raw materials. J. E. Poole..*306
Plastic cream, a new dairy product. Mack & Foskett *156
Regulation hurts dairies says McInnerney (N) *374
Truck body refrigerated for dairy products *508
Decolorizing earths (A) 146

Dehydration:

Freund-Thomas method of dehydration 34
Dessert of whole wheat 191

Dextrose:

Definitions and standards for food products 123
Dextrose as an industrial commodity. John Krno *107

Distillation:

Production of sugar from molasses by Olivarious process. W. H. Young..*314
Dog-food business. M. C. Schwartz....*490
Drive, variable roller (e) *432

Drying:

Air infiltration complicates bake oven design. G. R. Fennema *310
Instrument measures moisture in dried fruit *159
Why continue sulphuring? (ed) ... 197
Dust, malt, explosions *441
Dust explosions (picture feature) .. 546

E

Eggs:

Candling eggs automatically *363
Cartons of eggs packaged by bread-wrapping machine. S. A. Lewis..*397
Cleaning soiled eggs with a sand-blast *313
Fine screen clarifies eggs 190
Keeping the "core" out of canned egg yolks. John Godston *201
Second-hand egg cartons shown to be costly (N) 518
Why egg-breaking is not yet automatic *207

Employees:

Bakery salesmen not peddlers (N).. 39
Columbia Conserve employees see balance sheet every week. Norman Hapgood *294
Elderly employee (ed) 389
Food industries' labor trouble (N).. 230
Good foremen more important than ever (ed) 98
Ice cream drivers in summer, oil drivers in winter (ed) 485
Industrial pensions and ways to set them up. G. C. Parson 442
Industrial straw hats (ed) 51
Keep forearms horizontal *226
Labor Board asks bakery to deal with union (N) 184
Labor Board backs workers in dispute (N) 136
Labor boards settle strikes (N)..... 517
Labor troubles in September (N).... 472
National labor board acts in food plant strikes (N) 87
Quaker Oats matches men and jobs for safety. C. S. Johnson.....*252
Six-hour day cuts costs at Kellogg plant (N) 185
"Spare parts" ready (ed) 436
Strikes in food industries in July (N) 375
Strikes settled in food industries (N). 422
Training truck drivers 174
Treasurer of their own choosing (ed) 148
Truck accidents reduced 78 per cent. H. T. Eggert *505
Unemployed—appeal to the profit side (ed) 388
Unemployment insurance (ed) 244
Wage concessions in the food industries (N) 281
Works council. H. P. Dutton *56
Wrigley compensates during layoff periods (N) 231

Emulsifying:
